ABOUT

Adventure One

LOCATION

Sibenik, Sibenik-Knin, Croatia

AY60 Adventure One – Hull 1 is a purpose-built 18.3-metre adventure catamaran designed for owners who want true freedom on the water without compromising comfort, efficiency, or style. With her generous 8.47-metre beam, intelligent layout, and lightweight carbon-fibre structural backbone, the AY60 delivers impressive stability, strength, and usable volume, making her ideal for long-range cruising, island exploration, watersports, and relaxed family adventures.

Built in Thailand to world-class standards, each AY60 represents more than 40,000 hours of craftsmanship. The shipyard's experienced team combines precision, dedication, and attention to detail to create a vessel that is robust, refined, and highly practical. Hull 1 showcases the full potential of the Adventure Yachts concept: a modern, efficient platform built around real-life cruising, outdoor living, and seamless access to the sea.

Accommodation is arranged across four guest cabins for up to eight guests. Crew are accommodated in two cabins for a captain, steward, and cook, allowing guests to enjoy privacy and professional service on board. The spacious saloon, practical galley with kitchen island, protected helm station, and open deck areas create a comfortable and functional environment for extended time at sea.

Designed for efficient operation, the AY60 is equipped with an integrated solar system producing 8 kW of power, feeding a substantial 164 kWh battery bank. This allows for silent nights at anchor, powering onboard systems with minimal generator use and creating a quieter, more sustainable cruising experience.

Adventure One has been designed with watersports and exploration at the heart of the experience. Her bimini-integrated storage rack provides a sleek and secure solution for surfboards and other equipment, keeping the deck clear while protecting gear from the elements.

Practical systems further enhance life on board. Twin 48 V windlasses and multiple anchoring options allow the yacht to adapt to different seabed and reef conditions, while three drum winches support the tender davit system and forward access ladder. The retractable foredeck ladder provides easy and safe access to the water, ideal for

swimming, snorkelling, beach landings, or boarding from a tender. She is the first hull in the world that has a 5-year warranty from Navico sytems.

Environmental responsibility is also central to the design. The yacht's advanced black and grey water systems ensure that no untreated wastewater is discharged into the sea. Six black water tanks with a total capacity of 320 litres, high-efficiency fresh water toilets, and controlled grey water discharge systems allow wastewater to be managed responsibly and in line with CE certification standards. As part of the Global Tourism Plastics Initiative, Adventure Yachts is also committed to eliminating, innovating, and circulating its use of plastics by 2030.

With her carbon-reinforced construction, generous living spaces, silent energy systems, impressive toy storage, and true adventure capability, AY60 Adventure One – Hull 1 is a highly versatile catamaran created for owners who want to explore further, stay longer, and enjoy the water in complete comfort.
