ABOUT

Evo 31

LOCATION

La Spezia, Liguria, Italy

The EVO 31 is what I would classify as a modern day explorer designed with italian style. She is an extremely capable 31m featuring a steel hull, aluminum superstrucure, impressive volume of 299 gross tons while boasting a range of 4,000nm at 10 knots. Built to commercial class and MCA compliant this is a true global explorer in a very managable size. Exterior design and naval architecture by HydroTec while Milan based design studio Hot Lab is responsible for the innovative layout as you will see in the general arrangement.

The EVO 31 sleeps 10 guests in 5 cabins including a private owners deck on the upper level + 6 crew in 3 double cabins. The innovation comes with the main deck layout where the main salon connects both the aft deck and then a family style open galley complete with bar area and then all the way forward on the main deck is the formal dining complete with a balcony that is recessed into the hull so you can open up the sliding doors and get an alfresco feel. Fantastic layout and incredible smart use of space.

As a full custom project, the final layout can also feature an on-deck master & sky lounge so the flexibility lies with the requirements of the client.

Expansive exterior deck spaces, strong profile lines, tender garage and aft beach club anchor the design assuring she can travel the world with all the aminities one would expect on a high pedigree global explorer.

Full specifications
