ABOUT

Explorer 35

LOCATION

La Spezia, Liguria, Italy

Sergio Cutolo and the design team at HydroTec has done a fantastic job of designing the EXPLORER 35 where they have created a true global explorer within a very managable size of 35 meters.

26 month delivery and an excellent value when comparing cost per gross ton.

She sleeps 10 guests in 5 cabins including a spacious on-deck master suite & 4 additional guest cabins located in the lower accommodations.

A side entry tender garage allows for an expansive lazarrette area that can be customized at the clients request for dive gear, water sports equipment and toys.

The aft section of the main deck is absolutely massive and flows from her open transom up to multiple levels of lounge areas. Its a great spaces and with the aft deck doors open the main salon flows nicely combining interior & exterior spaces into one.

The sundeck has a full service bar, lounge area, and currently shows a forward facing lounge which could be replaced by a jacuzzi if requested by the client.

Strong exterior profile lines with an almost verticle bow, yet superstructure that flows nicely back aft with a large amount of glass used both on the main deck, upper deck and in the hull with large port holes allowing plenty of natural light to flood the guest cabins down below.

The spaces give the impression you are on a much larger yacht than a 35m and substantial thought has been put into the general arrangment & machine spaces allowing proper pantry and service areas, commercial grade galley and substantial engine room assuring maintenance is never neglected.

Her 4,000nm range give her the ability to cross oceans all with the amenties & comforts one would expect on a modern day explorer.

Full specifications
