ABOUT

# Baby

LOCATION

Athens, Attica Region, Greece

Meet M/Y BABY — Anvera 48 #24, a 14.50-metre performance yacht where advanced carbon-fibre engineering, exhilarating performance and exceptional onboard living come together.

Built extensively in carbon fibre to achieve an outstanding power-to-weight ratio, the Anvera 48 delivers performance of up to 42 knots, while remaining remarkably efficient and effortless to handle.

But BABY is about much more than speed. Her signature fold-down side terraces transform the aft deck into a spectacular private beach club, increasing her beam from 4.91m to an impressive 5.51m when open and creating the kind of exterior space normally associated with considerably larger yachts.

The interior follows the same philosophy. Bright, refined and surprisingly spacious, it offers a generous living area, a king-size bed forward, additional twin accommodation amidships and a well-appointed bathroom with separate shower — making her equally suited to exhilarating day trips or longer escapes.

At anchor, she becomes your private beach. Underway, she reveals the performance and precision behind her full-carbon construction.

Equally at home as a stand-alone performance yacht, luxury day cruiser or superyacht chase boat, M/Y BABY combines Italian craftsmanship with genuine versatility.

M/Y BABY | Anvera 48 #24 is now ready to welcome her next owner and can be operated for either private or commercial use.
