ABOUT

BALI 4.6

LOCATION

Paros, South Aegean, Greece

Active boutique charter programme in Paros, Greece — 2026 season bookings fully transferable to the buyer. Available for private use from October, Greece-based.

Bali 4.6 (2023) is a modern sailing catamaran that redefines onboard space, light, and freedom at sea, offering an exceptional platform for effortless Mediterranean cruising and extended family adventures. With her signature open-plan concept and outstanding volume, she delivers the feeling of a floating villa designed for comfort, autonomy, and social living.

This 2023 Bali 4.6 represents one of the most attractive examples of the model, combining the renowned Catana Group engineering with a highly practical 5-cabin layout. Powered by twin Yanmar 57hp engines, she ensures reliable maneuverability and efficient coastal passages. Designed for long stays onboard, she integrates advanced energy and water autonomy systems, making her ideal for independent cruising without compromise on comfort or functionality.

Currently operating under boutique charter management in the Greek islands — based in Paros from mid-June 2026 — she offers a rare opportunity to acquire a revenue-generating asset with an established summer programme. Existing charter bookings and associated income for the 2026 season are fully transferable to the buyer. The operation runs with a mandatory skipper and a selective, limited-rotation schedule — a boutique model designed to protect the vessel and maintain quality. Viewings are available during free windows throughout the season. From October, the yacht is fully available for private use while remaining based in Greece.

The interior layout offers accommodation for up to 10 guests across five well-proportioned cabins, including four bathrooms. The saloon benefits from Bali's signature opening forward window and seamless connection to the foredeck lounge, creating a true indoor-outdoor living environment with excellent ventilation and natural light.

Outdoor spaces are a defining feature, with a vast aft cockpit, forward lounge area, and a fully equipped flybridge. These areas are designed for entertaining, relaxation, and panoramic sailing experiences. The hydraulic aft platform and easy water access further enhance the onboard lifestyle.

Carefully equipped with upgraded systems and premium factory options, this Bali 4.6 represents a turnkey solution — whether you are looking for a private cruising base in the Greek islands or a charter-income asset with immediate returns.
