ABOUT

Columbus Atlantique 38

LOCATION

Savona, Liguria, Italy

NEW BUILD - ON SPEC

The design is a combination of stylistic, planning and functional elements dedicated to traveling by sea, fully enjoying every single moment spent on board. Great interaction of the spaces with the marine environment, the external lines are clean and elegant, with a touch of sportiness like in Italian grand touring cars appreciated all over the world.

The silhouette of the hull of the entire line recalls the sailing yachts of other times, and the stern area with its panoramic swimming pool is located just 50 cm above the sea.

Columbus Atlantique 38 is compact (299 GT) and has a sporty line with refined interiors. The layout includes 4 double cabins with private bathrooms located below deck, while the owner's stateroom is located forward of the main deck and is equipped with a bathroom with separate tub and shower as well as a walk-in closet. There are two dining areas, one on the external main deck and the other on the upper deck which can accommodate up to 10 people. The peculiarity of the latter is the large rounded windows, with up/down and lateral movement, which can be closed or opened when necessary to facilitate the constant connection with the sea. The first garage for the 4.45 metre tender is located on the starboard side, while a second 3.25 metre tender and the rescue boat are housed in the bow hangar. Columbus Atlantique 38 has a semi-planing hull and thanks to its two 2000hp MAN engines is capable of reaching a maximum speed of 22 knots and a cruising speed of 19 knots. The external lines and the interior design are by Hot Lab while the naval engineering is by Palumbo Superyachts.
