ABOUT

Happy 2

LOCATION

Istanbul, Istanbul, Turkey

A super-sporty spirit, an incredibly stylish design, large volumes, refined and customizable interiors, state-of-the-art technologies: a planing maxi yacht like the Custom Line 108' can proudly boast all this. Above all, however, it can boast a forward-thinking and contemporary sea-life concept. The 108's is heir to one of the most successful crafts ever built by Custom Line - a brand specializing in the production of fiberglass yachts between 28 and 38 meters in length, divided in two lines, planing and semi-displacement - and skillfully blends together unmatched elegance, style, and a very sporty character.

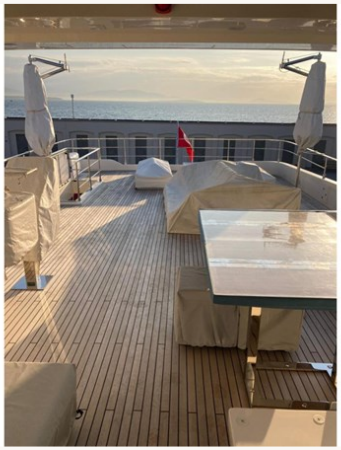

The Custom Line 108' - the outcome of the cooperation between Ferretti Group's Engineering Department and Studio Zuccon International Project - immediately captures the viewer's attention thanks to its streamlined, slender, rational, and flawlessly-balanced lines. Its profile is dominated by the design of the superstructure and the glazing, whose visual impact is further enhanced by the glazed surface at the height of the raised pilot station. The hull windows of the four VIP cabins, in turn, stand out for their original rectangular shape; they are approximately 1.70 sq. meters large, have no fiberglass frame and are completed by a flush glued double porthole.
