ABOUT

Dynamiq Global 550

LOCATION

Antalya, Antalya, Turkey

The Global 550 is a next-generation go-anywhere explorer that sails boldly into the most exclusive areas of the world. This yacht is about unrivalled efficiency and low impact operation. This is achieved with the lightweight, all-aluminium hull, which hardens in the cold, and sophisticated naval architecture that allows this yacht to reach 16 knots and maintain a range of 5,000 nm with just two 625 kW engines. The remarkable part about the engines, apart from their size, is their heavy duty rating, which allows for extremely long range passages. She also comes with advanced exhaust filters, massive freshwater storage and a sewage treatment system that fulfills the stringent requirements for navigating the Great Lakes, Alaska and MARPOL Special Areas, meaning that she can go without unnecessary bunkering.

As a true explorer, the layout features plenty of opportunities to take in all the sights, with observation lounge on the crow's nest at a height of 11 meters, complete with a steering station, and another one on the sundeck. The master stateroom on the main deck comes with a spacious personal office that doubles as another observation lounge. The Global 550 combines exploration with wellbeing and features spa with sauna and hammam in the transom. The yacht also boasts a fully commercially helipad on the main deck allowing to carry your own helicopter for further mobility and safety. Lastly, she comes with stylish, eco-minimalist interiors that integrate the untamed landscape into this one of a kind luxury explorer, making you feel truly at home in nature.
