ABOUT

# Hull #5

LOCATION

Istanbul, Istanbul, Turkey

Bold, distinctive and built for exploration, ROCK 90 combines the rugged character of an explorer yacht with the volume, comfort and style of a much larger yacht. Designed by Vripack and built by Evadne Yachts, ROCK 90's angular profile, high bow, and expansive outdoor spaces give her a striking presence on the water.

Her fast-displacement hull delivers an impressive balance of performance and range, with a top speed of 15.5 knots, a 12-knot cruising speed and a range of 2,500 nautical miles. With a shallow draft, she is equally suited to extended passages and reaching more secluded cruising grounds.

ROCK 90 offers exceptional volume, 164 square meters of interior space and 118 square meters of exterior space. Her clever half-level configuration creates the feeling of a larger three-deck yacht, while the expansive 55-square-meter lounge deck provides an exceptional setting for outdoor dining, entertaining and relaxation. Inside, Vripack's contemporary design combines muted fabrics and maple wood with distinctive geometric details and natural stone accents. The full-beam master suite benefits from a private fold-down balcony, creating an intimate terrace overlooking the sea. Three spacious guest cabins provide accommodation for up to eight guests.

With generous volume, creative layout and unmistakable exterior, ROCK 90 Hull #5 represents the distinctive DNA of the ROCK series in a yacht designed to go beyond the ordinary.
