ABOUT

Rock X

LOCATION

Monaco, La Colle, Monaco

READY FOR IMMEDIATE DELIVERY

ROCK X strikes the ideal combination between speed, comfort, and spaciousness. The world renowned team at Vripack designed a fast super displacement hull with a high, straight bow for intercepting rough seas. With an innovative sliding platform and a draft of only 1.8 meters, she can visit the most secluded areas in pursuit of adventure. All of this, combined with the yacht's steel and aluminum construction , results in a remarkably comfortable cruising experience with impressive speeds. Furthermore, at under 24 meters, ROCK X retains all of the benefits of the European CE rules' CE-A category. Additionally, ROCK X excels in providing unparalleled comfort and space to its discerning owners and guests. With a beam of 6.5 meters and three decks, the yacht's voluminous, open-plan layout boasts 20% more internal volume than other comparable-sized boats. She can comfortably accommodate eight guests and four crew in a volume of 150GT . On the main deck, full-height windows give amazing uninterrupted views onto the water. This space has a lounge area with adjustable seating and a fully equipped minibar, while the dining area, which can seat up to 12, features one of the largest glass panels found on a yacht this size. The owner's suite is on this level, characterized by a private drop-down balcony with underwater lighting and child-proofing features available at the press of a button. There are three guest cabins on the lower deck, a double and two twins, and the 15-square-metre bridge deck is given over to relaxing, with seating and al fresco dining. Sunshades create a further outdoor space on the main deck. Her Beach Club with Jacuzzi acts as a centerpiece for comfort and is just as much an integral part of her ergonomic functions. Her custom swim platform can accommodate a 6.5m (21ft) tender , but when unloaded, acts as the perfect connection to the sea. For additional details and for her full technical specifications, please reach out.
