PRELIMINARY PHOTOS

Turn-key and exceptionally well-maintained, this 2017 Grady-White Canyon 306 is a heavily upgraded offshore center console that combines legendary Grady-White ride quality with premium electronics, joystick maneuverability, and tournament-ready capability. Powered by twin Yamaha F300 outboards that have been professionally serviced on a strict 100-hour/annual maintenance schedule, this vessel is ready for immediate use and aggressively priced for a quick sale.

Equipped with the highly desirable SeaStar Optimus 360 joystick docking and control system along with a bow thruster, this Canyon 306 offers outstanding handling and effortless maneuverability around docks and tight marinas. The vessel also features an extensive Garmin electronics package including upgraded multifunction displays, radar, autopilot, VHF, and additional navigation/electronics enhancements for serious offshore cruising and fishing.

Recent cosmetic improvements include freshly refinished engine cowling paint and decals, professional detailing, wax treatment, and fiberglass touch-up work, giving the boat an exceptionally clean and updated appearance. Underwater lighting provides an impressive nighttime ambiance for entertaining or evening cruises.

Additional highlights include premium Grady-White construction, spacious fishing cockpit, comfortable seating throughout, excellent offshore performance, and highly desirable dry-stack storage at Virginia Key Marina — a major advantage in the Miami market (subject to availability/transferability).

This is an excellent opportunity to own a fully equipped, extensively upgraded Grady-White Canyon 306 that is truly turnkey and ready for its next owner.
