ABOUT

Salinate

LOCATION

Lighthouse Point, Florida, United States

The 76' Hargrave 2013 named " SALINATE" is a good looking motor yacht powered by CAT C18A diesels with a pair of 30kW Phasor generators and Naiad stabilizers. There are full walk-around side decks and hydraulic bow and stern thrusters to make things easier when docking, as well as flybridge and deckhouse helm stations plus a wired remote engine control console. The flybridge has air-conditioning beneath the hardtop as well as an electric stainless steel grill console aft on the bridge. Also aft is a hydraulic davit and HBI center-console tender.

The interior woodwork is a rich Makore which has a satin finish and has nicely detailed trim and complimentary custom furnishings. The salon had a notable makeover of all soft goods in 2022 having designer finishes featuring neutral colored settee and carpeting with blue themed chairs, and patterned window treatments, complimenting pillows, throws, area rugs, and artwork. There is a day head on the main deck a country kitchen style galley arrangement with a small lower helm. A stairway to the flybridge and stairway to the staterooms are here also. A full beam master stateroom is aft with his and hers heads with walk-in shower between. A separate laundry nook is off the companionway. Forward is a king berth VIP stateroom ensuite and a third stateroom ensuite has large twin berths which can be moved together to make a double. Aft is another stateroom which can be crew or guest. The entire interior is quality finished in typical Hargrave Yachts fashion. A good equipment list includes a Headhunter toilet system, waste treatment plant, Sea Recovery watermaker, and a complete A/V system.
