ABOUT

Second Amendment

LOCATION

Palm Beach, Florida, United States

If your plan is to spend substantial time aboard each year, and you want a yacht that can comfortably accommodate both family life and frequent entertaining, then the 100' Hargrave Second Amendment deserves serious consideration.

She offers over 3,500 square feet of interior and exterior living space across the flybridge, main deck, and lower deck, and more importantly, that space is felt in all the right areas. There is excellent storage throughout, and a sense of volume that is difficult to find in comparable yachts.

Upon touring Second Amendment , most people immediately notice how much larger the key living areas feel when compared to many European designs in this class. The guest accommodations are more generous, the bathrooms more substantial, the main salon and dining spaces more open, and the upper deck especially well suited for entertaining. This is a yacht built for the way owners actually use their boats, and hosting 50 or more guests for cocktails is very much within her comfort zone.

She was also designed from inception with charter in mind, which is significant for buyers who value the flexibility of future charter use and the potential income and tax advantages that may come with it. That said, her current owners have kept her strictly for private use and have never placed her into charter.
