ABOUT

Continental 80

LOCATION

Ancona, Marche, Italy

ISA Yachts is pleased to announce that the construction on hull # 3 of its new 80-metre “Continental” model is officially underway. The project has been started on speculation and will be available for delivery for the first quarter of 2030.

This is the third 80-metre hull currently in build at the Ancona shipyard. The other two units are already sold and scheduled for delivery in 2026 and 2027 respectively.

The first four blocks have already been assembled and construction will continue until the entire hull is built.

ISA CONTINANTAL 80 is a very architectural steel and aluminium yacht with well balanced volumes and streamlined lines. Its external design is highlighted by squared and rigorous windows for incredibly panoramic views from all the main indoor areas.

A distinctive detail is given by the terraces in the central section of the boat; in particular, the one on the Upper Deck looks like a real balcony and lets more light flood the living room.

Other strategic areas are just as brightly lit, like the gym in the Sky-lounge and the lounges on the Upper and Main Deck. Another emblematic feature of this yacht is the stern infinity pool. Its rectangular shape spans the beam of the deck and stands out for its aft wall formed by 2 glass sheets with water cascading between them.

So arranged, the swimming pool leaves ample room for large sunpads and lounging, transforming this portion of the Main Deck into an extension of the actual beach area to which is connected by a flight of stairs. The Upper Deck can be considered a proper owner’s deck with lounge and living areas astern and the master suite forward.

Equipped also with touch-&-go landing, the yacht ensures direct access to the owner's quarters for maximum privacy.

The interiors will include 7 cabins accommodating up to 12 passengers assisted by 19 crew members housed in 10 cabins. The yacht is equipped with two MTU 16V4000M63L engines reaching a 17-knot maximum speed and a 12-knot cruising speed with a range of 6200 nautical miles.
