ABOUT

Project Agape 32 Mt

LOCATION

Viareggio, Tuscany, Italy

Italyachts has a distinguished history of constructing luxurious vessels on behalf of Cantieri dell'Arno, particularly focusing on the 43 and 46-meter models. Upholding the esteemed "Viareggina" philosophy, Italyachts has consistently delivered superior craftsmanship and performance.

In 2008, Italyachts left two moulds of a 31 meters, a model celebrated for its elegance and speed. In 2013, the first of these was brought to life for one of our American client, achieving remarkable success. This initial venture demonstrated the excellence and potential of the Italyachts 31 design now called Agape 32.

Continuing this legacy, ACube Design Studio has undertaken the task of redesigning and modernizing the Agape 32 project. The result is a vessel that seamlessly blends timeless elegance with contemporary innovations.

The newAgape 32 will be constructed with the same meticulous attention to detail and dedication to performance that define Italyachts' philosophy. A standout feature of this modernized Agape 32 is its enhanced performance capabilities. It is designed to reach impressive speeds of up to 40 knots.

This remarkable feat is achieved with only two engines, each delivering 2600hp, compared to the previous model's three engines with 1800hp each. This not only showcases advanced engineering but also reflects a commitment to efficiency and cutting-edge technology.

In summary, the redesigned Agape 32 by Italyachts and ACube Design Studio represents a harmonious blend of tradition and innovation, offering unparalleled performance and luxury for discerning clients. Since the fiberglass is already ready and assembled, the yacht can be still personalized in taste and needs for the client and will be available for delivery in 16-18 months after agreement signed.
