ABOUT

Big Picture

LOCATION

Barcelona, Catalonia, Spain

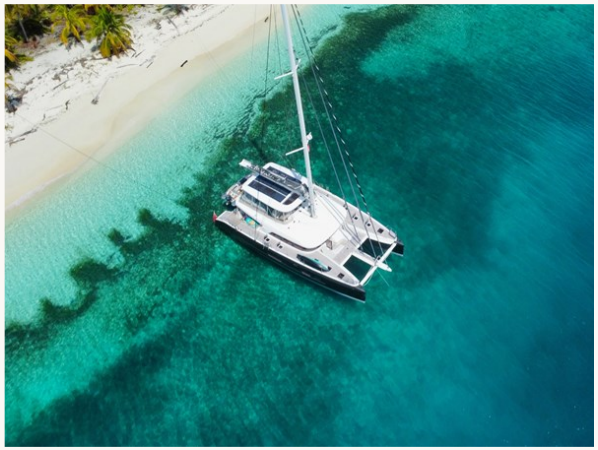

BIG PICTURE is a rare opportunity to acquire one of the most extensively customized and refined Lagoon Sixty5 yachts currently on the market — without the usual 2+ year wait for a new build and without the inevitable commissioning period, warranty downtime, and yard stays that typically follow delivery.

This is not a standard production yacht. She was conceived by a highly detail-oriented owner for a once-in-a-lifetime family circumnavigation and upgraded far beyond factory specification to create a yacht capable of serious long-range cruising in exceptional comfort, with systems, finishes, and practical improvements rarely found on a Lagoon. The owner invested approximately EUR 1.7 million in additional options and upgrades , followed by substantial further post-delivery work to bring the yacht to an even higher standard. This included specialist inspections, extensive fine-tuning, rigging reviews, noise-reduction improvements, replacement of standard running rigging with premium Maffioli lines, detailed defect resolution, and numerous enhancements to ensure the yacht is genuinely ready for extended bluewater use. Motivated seller.

The yacht is now located in the port of Port Ginesta in Barcelona for the winter and can be viewed at any time. The 2024 Lagoon Sixty5 is one of the most successful luxury sailing catamarans in her class, combining generous living space, elegant design, strong sailing ability, and excellent offshore practicality. With her white GRP hull wrapped in dark grey , 10-metre beam , and 1.55-metre draft , she offers remarkable interior volume, outstanding stability underway, and access to shallow anchorages that many larger yachts simply cannot reach. What makes BIG PICTURE stand out is not only her specification, but the fact that she has already gone through the most demanding phase of ownership: the first real-world cruising period. The owner used the yacht extensively from launch, identified and addressed the typical early-production issues, refined the systems, and invested heavily to elevate the yacht to a much higher standard than a typical yard-fresh example. For a buyer, this means the best of both worlds:

the proven platform, lighter construction, and sailing performance of a Lagoon , combined with a far more bespoke, elegant, and premium feel often associated with significantly more expensive semi-custom catamarans. She also benefits from the balance of Lagoon's transferable three-year factory warranty , providing valuable reassurance

and peace of mind for her next owner. If you are considering ordering a new catamaran, it is worth thinking carefully: by the time a new boat is delivered, commissioned, and debugged, you may have lost years of valuable cruising time. BIG PICTURE is available as the finished product — refined, corrected, upgraded, and prepared for immediate enjoyment. For inquiries, detailed discussions with the owner, or to arrange a visit, please contact us today.
