2023 LEOPARD 53 POWERCAT — MASTER CONCEPT 3

MASTER CONCEPT 3 is an exceptionally well-equipped 2023 Leopard 53 Powercat, thoughtfully upgraded for comfortable owner-operated cruising, extended time aboard, and entertaining family and friends.

Originally ordered with an extensive list of extra factory options, she has continued to receive meaningful upgrades under her current ownership, including a Lithium battery system, six 470-watt Solar panels with MPPT Charge Controller, upgraded protective hull Rubrail, removable turquoise hull wrap, Starlink, Watermaker, Yacht Controller, and more.

She has also recently completed her annual maintenance and received a fresh bottom job, presenting as a well-prepared cruising package.

The Leopard 53 Powercat combines the interior volume and stability that make power catamarans so appealing with relatively shallow draft and efficient performance. Her twin Yanmar 370 HP diesels with conventional straight-shaft propulsion provide a simple, proven drivetrain particularly well suited to extended cruising.

MASTER CONCEPT 3 is the desirable three-stateroom Owner’s Version, with the entire starboard hull dedicated to the owner’s suite and two private guest staterooms to port.
