Leopard® 53 PC – Plan C

2024 | Immediate Delivery | Greece

Step aboard Plan C , the ultimate Leopard® 53 PC , freshly upgraded in 2025 with every system enhanced for autonomy, comfort, and quiet performance. This yacht is designed for true independence: her 28.8 kW lithium bank and 5.7 kW walkable solar array supply up to two-thirds of onboard electricity in peak summer months, even with air conditioning running. She can remain at anchor for several days on battery power alone during sunny conditions, delivering 6–10 hours of A/C runtime without needing a genset. For extended comfort, the Fischer Panda® PMS 10000i — an ultra-quiet 8 kW generator with autostart — ensures seamless, silent A/C at night, while the more powerful Northern Lights® 12 kW generator provides robust daytime capacity when higher loads are required. Custom made additional crew cabin .

Performance is assured with twin Yanmar® 370 HP engines showing just 936 hours (starboard) and 934 hours (port) . Generator hours are equally low: Northern Lights® 12 kW at 1,001 hrs and Fischer Panda® PMS 10000i at 371 hrs . Combined with 2,100 L fuel and 700 L freshwater , Plan C offers long-range capability while consuming up to 50 % less fuel than comparable monohull yachts.

The autonomy package is matched by an interior and exterior designed for luxury and practicality. The expansive flybridge is a social centerpiece with wet bar, grill, icemaker, and teak decking, perfect for entertaining. Below, the owner’s cabin layout is complemented by a cleverly added second twin crew cabin, maximizing space and versatility. High-end finishes and an air chiller system are paired with advanced digital monitoring, Quantum® radar , and augmented-reality navigation for a cutting-edge yachting experience.

For onboard entertainment, the vessel features four Sonos® zone amplifiers , enabling full 4-zone music control. All speakers are high-fidelity , with the Sonos® system delivering 150 W per channel for powerful, premium sound across the yacht. The system integrates eight Fusion® Signature Series 3i Coaxial Classic White Marine Speakers for immersive outdoor coverage, paired with two in-wall Focal® Audio speakers that deliver crystal-clear,

studio-quality sound indoors. Fourteen underwater lights illuminate evenings at anchor, while a wraparound cockpit shade in premium Batyline® fabric provides all-day protection, supported by full winter covers. Extensive noise and vibration silencing has been completed across engines, pumps, and gensets, enhancing onboard comfort, and bespoke internal carpentry upgrades add a refined finishing touch.

Adventure readiness is built into the package. A hydraulic lifting platform makes water access effortless, while the Highfield® SP390 tender with Honda® 50 HP outboard is fully equipped with ski pole, wakeboards, Jobe® Multiboard , and dual Jobe® Rumble Ring towables for family fun.

Built by Robertson & Caine® and designed by naval architects Simonis Voogd® , the Leopard® 53 PC remains the flagship of the Leopard family and a 2020 Multihull of the Year® winner. With unprecedented space, stability, and efficiency, it combines rugged blue-water spirit with every creature comfort of a luxury motor yacht.

“All upgrades completed in 2025. No waitlist, no additional investments needed — just step aboard in Greece, cast off, and enjoy unmatched comfort, autonomy, and freedom.
