ABOUT

Turangalila

LOCATION

Miami, Florida, United States

TURANGALILA represents a rare opportunity to acquire the first Marlow Explorer 75E-CB ever built that was delivered to the United States. Professionally maintained by a knowledgeable owner and captain since new, she presents as an exceptionally refined and highly upgraded enclosed bridge motor yacht with extensive recent services and thoughtful operational enhancements throughout.

Powered by twin Caterpillar C-32 ACERT 1800HP engines, TURANGALILA delivers impressive performance with cruising speeds around 24 knots and top speeds approaching 30 knots, while maintaining the range, seaworthiness, and owner-operator practicality that have made Marlow Yachts so respected in the marketplace. They have just 1,350 hours and carry the confidence of Caterpillar warranty for a few more years. Equipped with a wireless Yacht Controller, upgraded hydraulic bow and stern thrusters, Naiad stabilizers, dual upgraded generators, and a robust electrical infrastructure, she is equally suited for experienced private operation or fully crewed cruising.

Her fully enclosed command bridge substantially expands the yacht's versatility and comfort envelope for long-distance cruising, weather protection, and year-round usability. Combined with Marlow's proprietary lightweight composite construction, efficient hull design, and extensive systems engineering, TURANGALILA stands apart as a serious cruising platform rather than simply a luxury coastal motor yacht.

Recent maintenance and upgrades include bottom paint, running gear Prop Speed application, zinc replacement, hull touch-up, buffing and wax service completed in August 2025. Additional notable features include upgraded shore power systems, Spot Zero water purification, fuel polishing system, underwater lighting, premium Garmin electronics package, Starlink connectivity, and extensive custom interior refinements throughout.

TURANGALILA is a compelling combination of performance, engineering, operational capability, and understated luxury, representing one of the most capable and best-equipped enclosed bridge yachts available in her class today.
