ABOUT

Mazu 132DS

LOCATION

Altinova, Yalova, Turkey

Mazu Yachts proudly introduces the Model 132 DS, the flagship of the Displacement Series. This newest addition to the Mazu Yachts family sets a new standard in luxury yachting, offering an exquisite blend of design, technology, and innovation.

Mazu Yachts, known for its previous successful models, the 92 DS and 112 DS, has once again partnered with Volvo Penta to ensure that their exceptional yachts are powered by nothing but the best. For the Model 132 DS, they have taken it a step further by incorporating Volvo Penta's cutting-edge technology, the IPS 40, promising an even more exceptional cruising experience. The model's main features are its flybridge exterior area, which is notably larger than other yachts in its size category. One of the standout features of this magnificent vessel is its exceptional owner's terrace. Step outside and into your own private oasis. Renderings reveal ample lounge areas across the model's four decks, including a sun deck arranged with a dip pool, L-shaped sofa seating, a bar and an al fresco, 10-person dining table. There is also a spacious beach club, fitted with lateral-opening wings, that is separated from the main saloon by semi-opaque glass. In an ongoing partnership with Volvo Penta, the Mazu 132 DS has incorporated Volvo's IPS 40 propulsion system. This offers improved fuel efficiency, reduced emissions and unparalleled manoeuvrability.
