ABOUT

# Mazu 92

LOCATION

Altinova, Yalova, Turkey

The 2025 Mazu Yachts 92 DS is a fully customizable, new-construction explorer yacht designed for owners who seek unparalleled personalization, cutting-edge design, and long-range cruising capability. Built with a steel hull and aluminum superstructure, the 92 DS offers flexibility at every level, from layout configurations to finishes, deck arrangements, and performance options. With an impressive 12-month build timeline, this yacht presents a rare opportunity to bring your vision to life with the craftsmanship and expertise of Mazu Yachts.

Every Mazu 92 DS is entirely unique, allowing owners to tailor the yacht's exterior paint scheme, interior décor, and onboard amenities to their preferences. The main deck layout options include either a five-cabin configuration with a private owner's deck or a four-cabin layout with a full-beam primary stateroom forward. For North American buyers, an alternative layout incorporates a country kitchen on the main deck, creating a more social, casual environment for entertaining. The yacht also includes crew accommodations for five, with the captain's cabin conveniently located in the pilothouse for optimal navigation support.

Designed to cruise in comfort and style, the spacious interior can be configured with high-end materials, custom furnishings, and premium entertainment systems, creating an atmosphere that's both elegant and highly functional. Expansive windows throughout the yacht bring in abundant natural light, enhancing the sense of openness and connection to the sea.

Stepping outside, the 92 DS features expansive deck spaces that can be outfitted with custom lounging areas, alfresco dining setups, or even a jacuzzi. The aft deck and foredeck can be tailored for sunbathing, relaxation, or entertaining, with the option to incorporate retractable sunshades, outdoor bars, or integrated sound systems. The teak-laid swim platform offers easy water access, with the possibility of a tender garage for additional storage.

At the heart of its long-range cruising capability, the 92 DS is powered by three Volvo Penta IPS 1050 engines, delivering a cruising speed of 12 knots and a top speed of 17 knots, with an impressive range of over 1,200 nautical miles. For those who demand greater performance, an optional upgrade to Volvo IPS 1350 engines provides additional horsepower and increased efficiency. The yacht is also equipped with advanced stabilization systems,

including Sleipner bow and stern thrusters and Humphree fin stabilizers, ensuring a smooth and steady ride even in challenging sea conditions.

For buyers seeking a fully tailored yachting experience, the Mazu 92 DS offers a level of customization rarely seen in this size range. Whether you envision a private floating retreat or a luxurious long-range cruiser, this yacht is built to your exact specifications, delivering a seamless blend of performance, elegance, and adventure.
