ABOUT

Doge 400

LOCATION

Fort Lauderdale, Florida, United States

The superyacht Doge 400 is the first of the Doge series designed by Design aLOT studio. Its design features clean, sleek lines that complement its generous volumes, showcasing the distinctive style unique to the Doge range. This explorer yacht, with its pronounced vertical bow, blends elegance with sportiness, achieving a harmonious balance between open and enclosed spaces, communal and private areas, all while connecting to the sea through extensive windows along its length.

Every aspect of the yacht is designed to maximize available space, inviting on-board amenities rare for its 40-meter length, such as a wide beach club with twin fold-out balconies that open to the deep blue sea, as well as a spacious gym complemented by a generous sauna for two.

Every detail, from the materials and colors, to the placement of each element, reflects the attentive and refined design philosophy of BURDISSOCAPPONI interior design.

The Doge 400 luxurious design conceals a made-in-Italy, explorer steel-hull, ready to take on the adventure of a trans-oceanic journey.

The yacht's advanced engineering affords it a generous range of 5,000 nautical miles. This exception range stems from a state-of-the-art engine room, designed following the rigorous standards and robustness typical of commercial ships: the ceiling is higher, the volumes are generous and the overall technical layout has been developed to ensure efficiency and durability.

Whether the Doge 400 is destined to rule on the high seas or serve as a luxurious home away from home, the choice is yours. After all, it's not about the destination.

It's about the journey.

Images shown of the Doge 400 are sample photos from the two sisterships as well as renderings. Plunge pool shown in images is an option.

Delivery time of 28 months from signed contract. Final interior decor to be selected by buyers and/or preferred interior designer.

General arrangement shown is of Hull #1.

SPECIFICATIONS

Full specifications
