ABOUT

I Sea

LOCATION

Athens, Attica Region, Greece

Designed by Vripack naval architects, with her hull built and delivered by the renowned American builder Palmer Johnson, with her keel laid in 2000, motor yacht I Sea received a full rebuilt in 2014, by Navinco Greece and was last refitted in 2026. The outcome is a truly unique, excellent quality yacht, providing unparalleled living areas and open spaces, which places the yacht among the most successful in the charter market in her range.

Built with a aluminium hull and aluminium superstructure, she benefits from a semi-displacement hull to provide exceptional seakeeping and impressive speeds. Powered by twin Detroit Diesel engines, she comfortably cruises at 12 knots, reaches a maximum speed of 14 knots with a range of up to 2500 nautical miles. Her low draft makes her primed for accessing shallow areas and cruising close to the shorelines. An advanced stabilisation system on board reduces the side-to-side roll of the yacht and promises guests exceptional comfort levels at anchor or when underway.

Designed to comfortably accommodate up to 10 guests in 5 suites. the full beam master suite benefits from a private balcony, a private owner's salon, a king-size bed, a walk-in wardrobe and a large en suite bathroom. Two identical VIP cabins are located on the main deck, while two identical twin cabins are located on the lower deck along with a playroom.

Outside, I SEA boasts a generous sundeck with a raised Jacuzzi surrounded by sunpads and a couple of social seating arrangements. An outdoor bar and dining table make the perfect spot for an al fresco meal or enjoying sundowners with friends. A bathing platform provides guests with direct access to the sea and I SEA's outstanding collection of water toys.

Full specifications
