ABOUT

Sanlorenzo SL96 Asymmetric #894 (New)

LOCATION

Athens, Attica Region, Greece

SL96 Asymmetric rethinks the conventional layout of a yacht, and revises traditional onboard balances, offering not just volumes previously set aside for other functions, but also and above all new living scenarios, new vantage points capable of intensifying and encouraging that innate visual, physical and emotional bond that exists between human beings and the sea.

A synthesis of languages, places and functions, a life container

Conserving only the gangway on the starboard side and eliminating the one on the port side, which shifts to the roof of the superstructure, the asymmetrical configuration, seen on SL102A first, frees up about 10 square meters of space for internal use. With respect to a traditional layout, this arrangement offers more space, improving luminosity and flexibility.
