TT KATANA | 2024 SAXDOR 320 GTO | DUBAI, UAE

TT Katana is a 2024 Saxdor 320 GTO, handed over new in Dubai in May 2024, with twin Mercury V6 225 hp outboards at 68 and 69 hours. She was ordered with the Information Display and Entertainment package, the Toilet and Fresh Water upgrade and the Saxdor Lifestyle package, plus a bow thruster, windlass, solar charging and the sliding aft sofa with teak table. The owner has since added a LiPo battery with an inverter, 230 V sockets and shore power. UAE VAT is paid, she is on the UAE flag, and her registration and insurance were renewed in June 2026.

MAIN FEATURES

- Added LiPo battery with inverter, 230 V sockets in cockpit and cabin, shore power inlet
- Electric toilet, fresh water system, grey and black water tanks
- Bow thruster, Mercury Active Trim, manual trim tabs
- Catapult bow windlass with chain
- Solar panel charging
- Electric opening side terraces
- Wet bar with two refrigerators

• Sliding aft sofa and sunpad with teak table, front deck sunbed, covers

• UAE VAT paid, UAE flag, registration and insurance renewed in June 2026

DESCRIPTION

The Saxdor 320 GTO is a 10.3 m T-top day cruiser with a forward cabin and electric side terraces that open out over the water at anchor.

TT Katana was ordered through our Dubai office and handed over in May 2024. The helm has three individual seats, power steering, a leather wheel and a Simrad glass helm with two 12" displays linked to Mercury VesselView. Twin Mercury V6 225 hp outboards, Active Trim, manual trim tabs and a bow thruster complete the setup. Extreme Marine replaced the spark plugs and clamps on both engines in December 2025.

The cockpit is arranged around the wet bar, which has a refrigerator on each side, and a sliding aft sofa that turns into a sunpad with a teak table. There is a second sunbed on the foredeck. Soft deck flooring, deck lights and a water ski pole are fitted, and the soft deck was re-bonded in December 2025.

The forward cabin has comfort mattresses with a topper. The toilet compartment has an electric toilet, fresh water and a handheld shower, with a second handheld shower on deck.

The owner upgraded the electrical system. A LiPo battery with an inverter powers 230 V sockets in the cockpit and the cabin, charges from a shore power inlet and keeps the lead-acid house battery charged. The charger is a Victron unit with Bluetooth monitoring, and a solar panel tops up the batteries on a mooring.

Available now. Contact us to receive the complete photo and video package via WhatsApp.

SPECIFICATIONS
