ABOUT

# Sea Ray Sdx 250 Surf

The 2026 Sea Ray SDX 250 Surf stands in singular excellence, offering a full suite of optimized features. This model features a spacious layout, abundant seating, and ample storage. Plus, the intuitive NextWave™ surf system generates rideable, repeatable waves for wakesurfing and other watersports that the whole family can enjoy.

Key Features

• A Chance to Make Waves - Sea Ray's intuitive NextWave™ surf system, seamlessly integrating ride-ready features with next-gen Sea Ray design, is powered by a standard 300hp MerCruiser® 6.2L engine with a forward-facing Bravo Four S® drive and contra-rotating props. SmartCraft Technology and DTS for enhanced maneuverability make this model ideal for family-friendly water sports while offering improved control when docking or traveling at low speeds.

• Never a Dull Moment - A spacious bow and wider sunpad make the post-surf wind-down a relaxing treat that deserves as much anticipation as the ride itself.

• Satisfying Storage - Keep floors clear of gear. Intentionally designed compartments and niches let you designate a spot for everything from towels to treats. Look both ways. Change seating configurations to orient your view both aft and forward. Next gen Sea Ray style. Sleek lines and sculpted features let everyone on the lake know you’re riding behind a Sea Ray.

• Easy Water Access - The swim platofmr with an optional automatched undermount submersible step offers a spacious spot to lounge by the water and facilitates seamless access for swimming. Three-position transom seat easily transitions from a hard-back surface to an aft-facing seating, so you can observe or be part of the fun along the water's edge.

• Watersports Tower - The electric folding watersports tower with an integrated Bimini top and surf tow points allows you to pull wakesurfers with ease.

• Satisfying Storage - Keep floors clear of gear. Intentionally designed compartments and niches let you designate a spot for everything from towels to treats.

• Adjustable Seating - The helm and port companion seats feature convertible backrests that transform them into aft-facing loungers.

• Surf Power - To create rideable waves for watersports , the boat is powered by a Mercury MerCruiser 6.2L MPI ECT engine with a forward-facing Brave Four S drive and SmartCraft Digital Throttle & Shift (DTS).
