ABOUT

Project Freedom

LOCATION

Istanbul, Istanbul, Turkey

PROJECT FREEDOM 44 is a world class sport yacht meant to travel to remote corners of the world in search of big game fish, untouched reefs and coastlines for underwater adventures with scuba, free diving and snorkling or submersibles. Her expansive aft deck allows her to carry a substantial tender on deck plus additional toys thus eliminating the need to tow a chase boat. When offloaded the space converts to pool deck overlooking the cockpit below which I feel is one of of the highlights of the design allowing owners & guests to really connect to the ocean whether utilizing the space for fishing or lounging or accessiing your watersports toys.

PROJECT FREEDOM 44 is offered in 3 different models: FISHERMAN, FISHERMAN ENCLOSED VERSION, and LEISURE for those who want to utilize the design and capabilities of the vessel with less focus on sportfishing.

The FISHERMAN & FISHERMAN ENCLOSED versions have the open aft deck and massive beach club located below that can be customized at the clients request Key features include scuba & diving stores, fishing & tackel storage, bar area and gym space with dayhead.

The LEISURE version features a pool and side entry tender garage. The beach club area is now split into two seperate areas due to the centerline pool so to port you have a gym while to starboard you have ascuba/dive area (or fishing/watersports storage area) with day head. Again, this can be customized as per the buyers requirements.

Each model sleeps up to 12 guests in 5 cabins including an on-deck master suite. Important to note that a 6 cabin layout is possible.

Large main deck galley opens to the salon for easy silver service while the sky lounge on the upper deck features a full service bar, pantry , day head and captains quarters. The exterior deck on the upper level is a great vantage point to view the boat deck or pool deck below.

The flybridge on the FISHERMAN and LEISURE both feature day heads, jacuzzi pool surrounded with sunpads, full outdoor kitchen and dining.

The FISHERMAN ENCLOSED has a fully enclosed addedd deck and lounge with a dayhead & direct access to the crows nest above. Personally speaking I love this design for the true big game sportfish clients as its a true throwback to the large enclosed sportfish models that have been built over the years.

PROJECT FREEDOM 44 has an impressive range of 4,000nm range at economical speeds while also producing a top speed of 22 knots. Expansive refrigerator & freezer spaces, commercial grade galley, proper crew accommodations, redundant mechanical systems, well laid out machinery & engine room make her a world class explorer.

At 400 gross tons she has substantial volume for an open deck world cruiser and has been fully engineered with construction able to start immediately. SES Yachts has a reputation for building high quality, custom yachts for bespoke clientele from around the world which is a perfect match for this project.

Interior decor, deck configurations, beach club, lounge areas - everything is customized at the request of the client. A yacht truly built for cruising the world with family & friends in search of new adventures and lasting memories.

PROJECT FREEDOM 44 is a next generation explorer yacht catering towards big game fishing & diving with a global reach.
