ABOUT

# All Star 1

LOCATION

Varazze, Liguria, Italy

All Star 1 is a 44.8-metre motor yacht built by Sterling Yachts with exterior design by Jon Bannenberg. All Star 1 underwent a major refit in 2016 that included replacement of the main engines and gearboxes, new generators, updated galley equipment, a new HVAC system and installation of zero-speed stabilizers, along with more than 400 additional upgrades carried out across the vessel.

A key feature of All Star 1 is an elevator connecting the lower deck through to the sundeck, allowing direct access between all main guest areas. The top sundeck also includes an enclosed gym area fitted with a skylight above and a steam shower, creating a private wellness space at the highest level of the yacht.

All Star 1 offers an estimated cruising range of around 3,750 nautical miles and is arranged for both extended cruising and entertaining large groups. Entry on the main deck leads to a triple-height atrium featuring a floating stainless-steel and glass spiral staircase.

The accommodation layout on All Star 1 includes a full-beam master stateroom positioned forward on the main deck. The suite is accessed through a private corridor and includes a king bed, seating area, walk-in closet and a marble bathroom with dual sinks, shower and separate water closet with bidet.

Four guest cabins are located on the lower deck, each with en-suite bathrooms. The two forward cabins can be combined into one large VIP suite if required. Crew accommodation includes four double cabins, a captain's cabin with desk and private bathroom, and a dedicated crew lounge.

On the upper deck, All Star 1 features a salon with a full service bar, seating areas with floor-to-ceiling windows and a forward observation lounge arranged around a circular sofa. Exterior spaces include an aft upper deck dining area for up to twenty guests and a hydraulic transom door forming a beach club with diving board.
